THE STORY OF MOSES tev. Brooke Herford Gives a Rebuke to

From a Sermon Reported in the Chicago Times

When I hear people treating the Pentatuch as something they would like to see done away, I cannot help wishing that it could be dug up afresh in these days of curious research into the past. Why, suppose that the Jews had no such books, and had not known anything of their origin except a vague tradition of some sort gin except a vague tradition of some sort of migration under one Moses, and curiously fitting to this the Egyptian tradition —
which is, you know, that some 1300 years before Christ a great multitude of ypeople had gone out of Egypt, led by an Hegyptian priest, who taught them many of things contrary to the Egyptian religion, and afterwards changed his name to Moses—well, supposing then these books of the Pentatouch should be discovered somewhere—why, the world would go a wild over them. What would it matter whether it would be settled that Moses whimself did or did not write them—or a that possibly they were not writen till yeenturies after, and only preserved what is was believed about him at that early date — will the fact would remain that they have the west of the contract of the -still the fact would remain that they take us by traditions, at any rate, so take us by traditions, at any rate, so much further back into the past and show us there one of the very noblest stories of the world. For that is what the story of Moses is. Take off all the discount you will for exaggeration—I dare say the numbers are immensely exaggerated. Suppose the idea of his having been led by God speaking to him to have been only his own intense consciousness of what was best, ascribed to God. Suppose the idea of his having been helped by miracles to have been only his own reverent impression, ascribing every trouble that came on Egypt, and every favoring circumstance to his own people, to some purposed and o his own people, to some purposed and lirect help from God. All that does not ouch the essence of the story of Moses. There it stands, how those Hebrews

through many generations had sunk into the pariah and helot class of that great rich Egyptian civilization; and how at last this Moses rose up, to rally them to a

the pariah and helot class of that great rich Egyptian civilization; and how at last this Moses rose up, to rally them to a mighty effort to get right ways into some other land. He had been somehow brought up among the Egyptians, trained in the sacred city, educated among the priests—an adopted son of Pharach's daughter—but he had given it all up, identified himself with his down-trodden people, and at last won for them the liberty to go! And they went out—out into the great desert waste. What does it matter that the tradition of their numbers got purhaps enormously exaggerated? If there were only a hundredth part—thirty thousand instead of three million in all—there were quite enough to task their leader's fortitude to its utmost; and through those books we have at least very living glimpses of him in his efforts to keep them from grumbling and getting disheartened; in his offorts to keep them from grumbling and getting disheartened; in his offorts to keep them true to his simple teaching of the one Almighty God; in his lonely hours when he was listening for the cternal word, and shaping his best thoughts which Cincinnati.

fortitude to its utmost; and through those books we have at least very living glimpses of him in his efforts to keep them from grumbling and getting disheartened; in his efforts to keep them true to his simple teaching of the one Almighty God; in his lonely hours awhen he was listening for the eternal word, and shaping his best thoughts which he believed came to him from God into laws for his people. And there is the great fact, you know—however, he did it, he did guide and lead them through that long migration, and at last brought them to the land from which their fathers had gone out long before, and bade them go in and possess it! And that multitude whom he led out of Egypt a race of slaves, servile with long oppression, at overy difficulty talking of going back, he had in that forty years knit into a brave, hardy fierce race—who did go in and possess the land and became the progenitors of one of the world's noblest races. That is the story of Moses—just the barest skeleton of it, taking only the largest, most unmistakable features; and I say again there is no finer story in history. And what will
